

Corporate Overview

ON-LINE Computer Services is a Halifax based, privately owned business providing technology solutions to corporate clients since 1989.

ON-LINE's client base is concentrated in the Halifax Regional Municipality and has expanded over time to include clients in the Valley, along the South Shore and in other parts of Nova Scotia. The business has grown primarily as a result of satisfied client referrals. An active member of the Halifax Chamber of Commerce ON-LINE practices:

- High Standards of Service,
- High Standards of Technical Expertise, and,
- Rapid Response to Client Needs.

ON-LINE has significant expertise in designing, implementing and supporting corporate networks. ON-LINE's abilities in the areas of Internet connectivity, wireless networking, virtual private networks and remote access have developed in step with the Internet. Utilizing these technologies enables it to provide support from its downtown Halifax location to sites throughout the Province.

To effectively serve clients ON-LINE has experienced, highly skilled support personnel available at its office and repair facility in Halifax providing quotation and sales information, hardware configuration and repair services, and, operating system and application software installation and support. ON-LINE specializes in on site hardware, software and network support. The office is open normal business hours with after hours contact numbers and support provided as required.
